Projects

Crop Insurance System | *MERN Stack, REST APIs, Vite* **Oct 2025 – Dec 2025**

- Developed an integrated **crop insurance portal** that enables farmers to **digitally register**, **access policy details** and **submit claims**, ensuring a smoother and more transparent insurance experience.
- Created a responsive **insurance plan discovery** interface with **advanced crop, region and coverage filters**, helping farmers effortlessly identify suitable insurance options within the platform.
- Implemented secure multi-role access for **farmers, proposers and administrators**, achieving **30% quicker claim resolution**, **75% lower manual processing effort** and improved end-to-end workflow reliability.
- Repository Link: **https://github.com/Priyangshu0011/AgriSurance-Smart-Crop-Insurance-Portal**

Student Report Generator | *HTML5, CSS3, JavaScript* **Jun 2025 – Jul 2025**

- Designed and developed an efficient **student record management system** enabling teachers to maintain academic data with improved **accuracy** and **operational ease**.
- Engineered a responsive web-based platform with **automated grade calculation**, **data validation** and **dynamic report generation**, ensuring smooth academic data handling.
- Achieved **40% faster data processing**, reduced manual errors by **over 60%**, and ensured full **offline accessibility** with seamless cross-device usability.
- Repository Link: **https://github.com/Priyangshu0011/Student-Report-Generator**

AI-powered Smart Irrigation System | *HTML5, CSS3, JavaScript, PHP, MySQL* **Jan 2025 – May 2025**

- Implemented an **AI-driven irrigation system** to analyze **soil-moisture patterns** and deliver **crop-specific watering insights** for precise and efficient water management.
- Integrated **AI prediction**, **automated irrigation control** and **real-time IoT monitoring** with an intuitive dashboard.
- Enhanced **water efficiency** by up to **35%**, expanded user support through **30+ FAQs** and strengthened system adaptability via an **integrated feedback portal**.
- Repository Link: **https://github.com/Priyangshu0011/AI-powered-Smart-Irrigation-System**

Certificates / Certifications

Master Generative AI Tools (ChatGPT & more) **Aug 2025**
Udemy — Certificate Link

Frontend Development **Jul 2025**
Board Infinity — Certificate Link

Design and Analysis of Algorithms **Mar 2025**
NPTEL — Certificate Link

Full Stack Web Development MERN Stack **Jul 2024**
CSE Pathshala — Certificate Link

Responsive Web Design **Nov 2023**
freeCodeCamp — Certificate Link

Technical Skills

Languages: Python, C, C++, Java, JavaScript, PHP

Technologies/Frameworks: MERN Stack, MySQL, Git, Ubuntu, Maven, Jenkins

Domain Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design

Education

Lovely Professional University **2023 – Present**
Bachelor of Technology - Computer Science and Engineering — CGPA: 8.2 *Phagwara, Punjab*

St. Xavier's Institution **2022 – 2023**
12th — Percentage: 71.50% *Panihati, West Bengal*

St. Xavier's Institution **2020 – 2021**
10th — Percentage: 95.40% *Panihati, West Bengal*
